Dear Mr./Mrs

My name is Wisnu Dentadio Mardiyanto. I graduated from Universitas Bina Nusantara with a degree of Bachelor of Computer Science. I would like to express my interest regarding the job position of Software Engineer that is currently open in your company. I believe I am qualified for the position of Software Engineer and I would like to submit my application.

I consider myself to be a curious person and always want to learn something new. I also have been interested in technology from childhood and dream of working in a company in the field of technology. I hope I can achieve my dream by working with your company. As a fresh graduate, I realized that I still lacked experience, but I always thought that means I still have many rooms to grow and I believe I can be an asset for your company.

For my experience, I interned at PT Kalbe Farma Tbk. for 6 months and helped to build a website for PT Kalbe Farma Tbk. using DNN Framework. I also have experience with android applications. My android projects are BlueLaundry: Android application that allows users to order laundry services on the phone, GetFit: A health and fitness application that the user can use for fitness activity, and Kalkulator Pasar: A simple calculator application that can be used for simple calculation, useful for traditional market and elementary school use.

For my technical skills I have used some Frameworks / Tools such as DNN, Vue.js, Android Studio, Unity and for the programming languages I have used are C++, Java, C#, C, HTML, CSS, JavaScript, Kotlin.

My Personal Information

- Name : Wisnu Dentadio Mardiyanto
- Place/Date of Birth : Semarang, 29 June 1998
- Gender : Male
- Contact Information : +62 857 86332657
- Email : wisnudentadio@gmail.com
