# THESIS PROJECT

Here is my thesis assignment, which is to design a logo for a company that houses a restaurant business.

In designing the logo, I was asked to create a logo that has a connection between the name and the visual of the logo. And I was also asked to create a visual logo that represents the name of the company.

# IMPLEMENTATION

The image features a light beige background with decorative wavy lines in the top-left and bottom-right corners. The lines are composed of two parallel, slightly offset curves in shades of brown and tan. Centered on the page is the text "Thank You!" written in a bold, orange, cursive script font.

*Thank You!*
